- Suitable for: CAT6A Data Cabling

“Easy as ECD®”

- A flexible option for distribution of power and voice/data cables from the floor or ceiling to the workspace.
- Standard mounting options include ceiling to floor, ceiling to desk (above or below) and floor to desk (above or below).
- Compatible mounting options available to suit above floor boxes (surface), flush floor boxes (recessed) and flush floor ducts.
- Durable polycarbonate construction.
- 2 compartment for segregation of services.
- Flexible arms allow for easy addition or removal of cables.
- Adjustable stainless steel through cable assembly for added strength and cable protection (all models except UMF780).
- Adjustable stainless steel cable for tensioning of umbilical to true length (all models except UMF780).
- Weighted foot plate (floor mount models) in durable powdercoat finish.
- Cable grommets provided (desk mount models) for through desk cable access.
- Individual segments are easily removed to adjust length as required.
- Custom mounting options available on request.
